HIGH QUALITY HAND-CRAFTED WOODTURNING TOOLS

High Quality Woodturning Tools from the Steel City of Sheffield

Abbeydale Industrial Hamlet in Sheffield (UK) was once the home of a number of manufacturing businesses and was the largest water-powered industrial site on the River Sheaf, the river from which Sheffield's name derived in the 12th Century.

T. Cooper Tools, who originated from 3 generations of toolmakers, formerly held premises at the Abbeydale Industrial Hamlet. When they changed their Woodturning tool range from gloss to matt handles in the 1990's, they named the new brand "Hamlet" as a reminder of their previous home.

In 2006, the world-renowned hand-crafted tool manufacturer Henry Taylor (Tools) Ltd became the new home of Hamlet Craft Tools, and these competitively priced Woodturning and Woodworking tools are still manufactured in Sheffield (UK) today.

Many of the tools featured in this brochure have been designed in conjunction with some of the world's leading Woodturners (see our signature range on pages 14 & 15) and can be purchased worldwide by visiting www.hamletcrafttools.com/stockists

1992

T. Cooper Tools established itself as an edge tool company – the latest constitution of the firm, emerging from 3 generations of toolmakers. Their premises were based at Abbeydale Industrial Hamlet.

1994

Tom Cooper moved his business away from Abbeydale Industrial Hamlet to new premises on Beulah Road, in the north of Sheffield, UK.

1999

A new tool brand was born. As the handles changed from a gloss to a matt finish, the name on the tools also changed to 'Hamlet' as a reminder of the company's previous home.

2006

Hamlet Craft Tools found an even newer home, staying in 'The Steel City', as it joined both the Diamic and Acorn brands to become part of Henry Taylor (Tools) Ltd., moving again to the current premises on Livesey Street.

2017

Hamlet's exclusive range of M42 High Speed Steel woodturning gouges was developed, and this range continues to be in high demand across the globe.

2021

Hamlet Craft Tools continues to be hand crafted in Sheffield, UK with the high-quality tools now being distributed to over 30 countries around the world.

CRAFT TOOLS
Sheffield England

All Hamlet Craft Tools are available with beech or ash handles, and are also available unhandled. Contact Your local stockist for more details.

The M42 High Speed Steel range of bowl and spindle gouges comes to you sharpened and ready to use.

The blades are hardened and triple tempered to improve both performance and wear resistance; meaning you spend less time grinding and more time turning, as the edge stays sharper for longer.

Hamlet's exclusive range of M42 woodturning gouges are instantly recognisable with their ergonomic ash handles and red powder coated brass ferrules; and they are recommended by many of the world's top professionals as the best there are.

M42 SPINDLE GOUGES

Used for detailed work such as cutting coves, forming beads and making V cuts; as well as for shallow hollowing or hole boring.

Ref.	Width in.	Width mm
M42068	3/8"	10
M42069	1/2"	12

M42 SPINDLE ROUGHING GOUGE

This forged gouge is used to rough shape uneven stock into a cylinder shape and to reduce square turning blanks to a round profile.

Ref.	Width in.	Width mm
M42064	3/4"	19

M42 MASTERFLUTE BOWL GOUGES

The versatile Masterflute bowl gouge comes with a parabolic flute and a 45° fingernail grind, with the heel removed, to aid control.

Ref.	Width in.	Bar Stock in.
M42150B	1/4"	3/8"
M42150	3/8"	1/2"
M42151	1/2"	5/8"

SPINDLE ROUGHING GOUGES

These roughing gouges are used for taking the corners off uneven and square stock, removing waste quickly and efficiently.

Ref.	Width in.	Width mm
HCT063	½"	12
HCT064	¾"	19
HCT065	1 ¼"	32
HCT066	1 ¾"	45

OVAL SKEW CHISELS

Designed for ease of movement along the tool rest, oval skews offer precise handling and are less prone to 'dig-ins'.

Ref.	Width in.	Width mm
HCT096	½"	12
HCT097	¾"	19
HCT098	1"	25
HCT099	1 ¼"	32

STANDARD SKEW CHISELS

Made from flat rectangular bar, these tools are heavier than oval skews for turning on legs, posts, etc.

Ref.	Width in.	Width mm
HCT100	½"	12
HCT101	¾"	19
HCT102	1"	25
HCT103	1 ¼"	32

ROLLED EDGE SKEW CHISELS

The combination of flat bar and rolled edges enables ease of movement and steadiness on the tool rest without fear of drag.

For a radius end, simply add "R" to the product ref. (eg. "HCT104R")

Ref.	Width in.	Width mm
HCT104	½"	12
HCT105	¾"	19
HCT106	1"	25
HCT107	1 ¼"	32

ROUND & SQUARE SKEW CHISELS

Round skews were developed specially to allow the blade to move more freely along the tool rest, while the square skew chisel is the traditional choice for planing cuts on cylinders and tapered forms.

Ref.	Width in.	Width mm	Description
HCT108	¾"	10	Round Skew
HCT109	½"	12	Round Skew
HCT109B	¼"	6	Round Skew
HCT111	¾"	10	Square Skew

DETAIL GOUGES

These gouges are designed for very fine point work. The shallow flute and heavy cross section of the long & strong gouges make them stable and easier to control.

Ref.	Width in.	Width mm	Description
HCT153	¾"	10	Detail Gouge Long Grind
HCT154	½"	12	Detail Gouge Long Grind
HCT156	¾"	10	Long and Strong Detail Gouge
HCT157	½"	12	Long and Strong Detail Gouge

Wedge Tool

Point Tool

Spindle Gouges

Spindle Makers

German Spindle Gouges

Continental Spindle Gouges

Bedan

The above featured bowl was turned by Glenn Lucas. For more information on Glenn's Signature Range, please turn to page 14.

WEDGE & POINT TOOLS

While the primary use of the wedge tool is to form coves in spindle and faceplate work, and the point tool is to form beads, the variety of uses and simplicity of use makes them a "must have" for any turner.

Ref.	Width in.	Description
HCT136	3/8"	Wedge Tool
HCT137	1/2"	Wedge Tool
HCT138	3/8"	Point Tool
HCT139	1/2"	Point Tool

SPINDLE GOUGES

Used for detailed shaping such as cutting coves, creating beads and forming other profiles on vases, goblets, candle sticks and more shaped work.

Ref.	Width in.	Width mm
HCT067	1/4"	6
HCT068	3/8"	10
HCT069	1/2"	12
HCT070	3/4" Forged	19

SPINDLE MAKERS

The design of this tool makes spindle work, such as producing coves, beading and planing achievable even for the beginner.

Ref.	Width in.	Width mm
HCT215	1/2"	12
HCT216	3/4"	19
HCT217	1"	25

GERMAN SPINDLE GOUGES

These spindle gouges come with rounded edges for smooth handling, along with an elongated nose to help achieve deeper cuts.

Ref.	Width in.	Width mm
HCT073	3/8"	10
HCT074	1/2"	12
HCT075	3/4"	19
HCT076	1"	25
HCT077	1 1/4"	32

CONTINENTAL SPINDLE GOUGES

Forged spindle gouges of European origin with superb handling qualities. These tools come evenly wallled for fine spindle work.

Ref.	Width in.	Width mm
HCT079	1/2"	12
HCT080	3/4"	19

Parting Tool
Diamond
Parting Tool

Parting Tool

Beading & Parting Tools

Bead Forming Tools

Captive Ring Tools

BEDAN TOOL

Used in the same way as the beading and parting tool, the tapered sides allow the bedan to plunge cut while minimising the risk of catches.

Ref.	Width in.	Width mm
HCT124	3/8"	10

PARTING TOOLS

Traditional woodturning tools specifically designed to separate (part) timber into 2 pieces, and to make sizing cuts.

Ref.	Width in.	Description
HCT089	1/6"	Parting
HCT090	1/8"	Parting
HCT091	1/4"	Parting
HCT092	3/16"	Diamond Parting

BEADING & PARTING TOOLS

Used primarily for forming beads and spigots, these tools can also perform the standard parting tool tasks.

Ref.	Width in.	Width mm
HCT094	1/4"	6
HCT095	3/8"	10

BEAD FORMING TOOLS

These bead forming tools were developed for cutting perfect semi-circular beads in multiple sequence, quickly and accurately.

Ref.	Width in.	Width mm
HCT127	1/4"	6
HCT128	3/8"	10
HCT129	1/2"	12

CAPTIVE RING TOOLS

No other tool will provide satisfaction like these tools do when creating captive wooden rings on turnings with ease.

Ref.	Width in.	Width mm
HCT130	1/4"	6
HCT131	3/8"	10
HCT132	1/2"	12

Bowl Gouges

Short Bowl Gouges*

Square End
Scraper

Round Nose
Scraper

Side Cutting Scrapers
and Dovetail Scraper

BOWL GOUGES

Milled from round bar, every bowl gouge is finely tuned for making the best of turned bowls. Ideal for heavy profile cuts removing excess wood or for more delicate feather cuts.

Ref.	Width in.	Bar Stock in.
HCT082	1/4"	3/8"
HCT083	3/8"	1/2"
HCT084	1/2"	5/8"
HCT085	5/8"	3/4"
HCT086	3/4"	7/8"
HCT087	1"	1"
HCT088*	3/8"	1/2"
HCT088A*	1/4"	3/8"

SQUARE END SCRAPERS

Perfect for finishing flat bottomed surfaces and convex shapes such as the outsides of bowls.

Ref.	Width in.	Width mm
HCT112	1/2"	12
HCT113	3/4"	19
HCT114	1"	25
HCT115	1 1/4"	32

ROUND NOSE SCRAPERS

Used to hollow and give a smooth finish to concave surfaces.

Ref.	Width in.	Width mm
HCT116	1/2"	12
HCT117	3/4"	19
HCT118	1"	25
HCT119	1 1/4"	32

SIDE CUTTING SCRAPERS

These scrapers are used to finish the insides and bottoms of objects as they can get where conventional tools cannot.

Ref.	Width in.	Description
HCT120	3/4"	Round
HCT121	3/4"	Diamond

DOVETAIL SCRAPER

Designed for making accurate recesses to fit the jaws of expanding chucks

Ref.	Width in.	Width mm
HCT122	1/2"	12

Masterflute Bowl Gouges

Heavy Duty Scrapers

Multi-Tip Scraper & Cutters

Designed to keep the vibration to a minimum, this range of Heavy Duty Scrapers come with exceptional mass and rigidity making them not only safe to use, but ideal for deep hollowing operations such as large vases and cylindrical containers.

MASTERFLUTE BOWL GOUGES

The Masterflute Bowl Gouges give the versatility that is often required by offering these special grinds of either the cut back standard grind or the longer cutting edge of the fingernail grind.

Ref.	Width in.	Grind	Bar Stock in.
HCT150	3/8"	Standard	1/2"
HCT150A	3/8"	Fingernail	1/2"

MULTI-TIP SCRAPERS AND HOLDER

This versatile tool comes with 3 interchangeable shaped tips (round, pear and square) which can be oriented to any angle on the stem.

Ref.	Description
HCT149	3 Cutters with Stem
HCT149Ar	Round Cutter
HCT149As	Square Cutter
HCT149Ap	Pear Cutter

Mushroom & Hook Tools

Ring Tools

Long Hole Boring Tool

Square Hollowing Tools

Deep Hollowing Tools

The art pieces featured above, were turned by Tracy Owen, for more information on the Tracy Owen signature range, please see Page 13 of the Diamic by Henry Taylor Tools brochure or visit www.henrytaylortools.co.uk/diamic-signature-tools

RING TOOLS

With its double bevel high speed steel ring, this tool provides a super finish when hollowing end grain and internal curved surfaces.

Ref.	Width in.
HCT125	1/2"
HCT126	1"

MUSHROOM & HOOK TOOLS

These tools are ideal for cutting inside the lips of bowls and vases.

Ref.	Width in.	Description
HCT162		Mushroom
HCT163	1/4"	Hook
HCT164	1/2"	Hook

LONG HOLE BORING TOOL

A merge between a spiral fluted gimlet and fluted angled cutter, this tool enables you to cut and remove wood in deep vessels with ease.

Ref.	Width in.
HCT160	5/16"

SQUARE HOLLOWING TOOLS

Perfectly suited for hollowing out small vessels such as egg cups, goblets etc.

Ref.	Width in & deg
HCT133	1/4"
HCT134	1/4" (45°)
HCT135	1/4" (80°)

DEEP HOLLOWING TOOLS

Small deep hollowing tools, perfect for removing the insides of hollow forms.

Ref.	Width in.	Description
HCT158	5/8"	Tapered Stem with 1/2" cutter & edge protector
HCT159	1/2"	Swan Neck Stem with 1/2" cutter & edge protector
HCT602s	1/2"	Cutter

The Brother System is a very flexible and robust hollowing system, with simple adjustments for fast, effective and safe hollowing. Complete with stem, cutter and edge protector, the system is available with 3 different handle sizes (13", 17" or 26"), optional side handle and holding jig, and interchangeable stems. The Little Sister is based upon the success of the Brother System, designed with the mini lathe turner in mind. It comes complete with stem, cutter and edge protector, with the option of either a stained beech wooden handle or a 13" multi handle.

BROTHER SYSTEM 2		
Ref.	Width in.	Description

5 Piece Boxed Set

6 Piece Boxed Set

8 Piece Boxed Set

The Hamlet Craft Tools Woodturning and Woodworking boxed sets come in stylish presentations boxes, as illustrated, making them the perfect gift!

5 PIECE BOXED SET

An ideal set for beginners or experienced turners, this collection features a selection of popular turning tools to tackle most turning needs.

Ref.	Includes
HCT166	3/4" Spindle Roughing Gouge (HCT064)
	1/4" Spindle Gouge (HCT067)
	1/2" Standard Skew Chisel (HCT100)
	1/2" Round Nose Scraper (HCT116)
	1/4" Parting Tool (HCT091)

6 PIECE SPINDLE & BOWL TURNING SET

This boxed set of six contains all the tools needed for bowl and spindle turning projects, making it a great general purpose set for all turners.

Ref.	Includes
HCT175	3/4" Spindle Roughing Gouge (HCT064)
	3/8" Spindle Gouge (HCT068)
	3/8" Bowl Gouge (HCT083)
	1/8" Parting Tool (HCT090)
	3/4" Round Nose Scraper (HCT117)
	1" Standard Skew Chisel (HCT102)

8 PIECE BOXED SET

This eight piece set contains a wide range of turning tools, capable of tackling the majority of needs of the more experienced woodturner.

Ref.	Includes
HCT167	3/4" Spindle Roughing Gouge (HCT064)
	3/8" Spindle Gouge (HCT068)
	1/2" Spindle Gouge (HCT069)
	1/2" Standard Skew Chisel (HCT100)
	1" Standard Skew Chisel (HCT102)
	3/4" Round Nose Scraper (HCT117)
	1" Square End Scraper (HCT114)
	1/4" Parting Tool (HCT091)

5 Piece Miniature Set

Profile Pro

Burnisher

Pen Making Set

Recessing
ToolThread Chasing
ToolsWoodworking
Chisel Set

5 PIECE MINIATURE HSS TURNING TOOL SET

These miniature tools are ideal for small lathe turners as the shorter handles makes them perfectly sized for detailed and delicate woodturning.

Ref.	Includes
HCT168	1/8" Gouge 1/4" Skew Chisel 1/4" Gouge 1/8" Parting Tool 1/4" Round Nose Scraper

GRINDING ACCESSORIES - PROFILE PRO

The set up tools are double ended and act as a visual aid designed to help you choose and properly adjust your grinding system.

Ref.	2x Grinds / Tool
088-4001	Standard/Modified Bowl Gouge
088-4002	Fingernail/Short Bevel Bowl Gouge
088-4003	Standard/Modified Spindle Gouge
088-4000	Set of 3 (as above)

BURNISHER

The burnisher is used to create a burr, or an edge, on a scraper for more efficient use.

Ref.	Width in.
HCT165	3/8"

PEN MAKING SET

These tools feature smaller blades for optimum control on the tool rest - perfect for pen turning or other small project turning.

Ref.	Includes
HCT169	3/8" Pen Spindle Gouge (HCT169-3/8) 1/2" Pen Oval Skew Chisel (HCT169-1/2) 1/8" Pen Parting Tool (HCT169-1/8)

THREAD CHASING TOOLS

These tools are supplied as a pair: a male for threading the outside and a female for cutting the internal thread.

Ref.	Description
HCT206B	18 TPI HSS
HCT206C	20 TPI HSS
HCT206D	22 TPI HSS
HCT208	Recessing Tool

4 PIECE WOODWORKING CHISEL BOXED SET

These chisels are well suited for fine joinery and cabinet making as they are able to work into tight spaces and acute angles.

Ref.	Includes
HCT011	1/4" Bevel Edge (HCT002) 1/2" Bevel Edge (HCT004) 3/4" Bevel Edge (HCT006) 1" Bevel Edge (HCT008)

Ground to Glenn Lucas's very own sharpening specification, each tool from Glenn's own signature range comes complete with a comprehensive instruction leaflet. Useful information such as grind diagrams, bevel angles and jig settings have been included by the internationally recognised woodturner, to help you reproduce the exact grind time and time again.

GLENN LUCAS SIGNATURE TOOLS
